

Subject: "More Detailed Information" regarding Statement After Governor's Press Conference

After receiving multiple messages, I am going to attempt to respond to all via one message.

Please understand that this process/situation is as new to us as it is to you and it affects all of us.

We are doing everything that we possibly can to allow students to get hours so that it will not affect their graduation dates. At the same time, we are doing everything we can to protect our students and staff.

Here is a broken down explanation of the previous message:

1. You are NOT REQUIRED to attend school tomorrow.
2. Missing tomorrow WILL NOT count against you.
3. We will be open for those students who wish to come in to school to make up time and stay on schedule for their graduation. Please come in during your regularly scheduled time if you plan on attending.
4. We will not allow client services tomorrow.
5. Instructors will be at the school
6. We will be doing practical education tomorrow only...most likely working on practical sheets with mannequins. Student services will be up to the discretion of the School Director.
7. The plan above is for tomorrow only at this time. We are meeting first thing tomorrow morning to contact both the State Board of Cosmetology as well as the Governor's Office. Cosmetology schools are not allowed to provide online education per statutes and regulations. We are attempting to get a temporary ability to provide online education to students so that a closing would not interfere with your ability to get hours.
8. You will be receiving more notifications tomorrow on what will be happening the Tuesday through Friday of this week and the following week.

Only reply to this message if you have any further questions that are not answered above.
