

OUTCOME RATES

The outcome rate information below corresponds to those who were scheduled to graduate in 2021 and is required by our Accrediting Agency. Individuals who did not get their license, by the date of the Annual Report, are still considered eligible for placement. However, our state requires licensure before you can work as a cosmetologist, esthetician, or Instructor. Lower placement rates may be due to individuals not obtaining licensure and therefore not working OR they may be working in the industry illegally (Unlicensed Practice) and are unwilling to provide the school that information. Due to the increase in online booking capabilities, unlicensed practice is becoming more common.

The institution's accrediting agency has allowed flexibilities to the institution in the publication of its student outcome rates if the COVID-19 Pandemic has significantly impacted the ability of students to successfully graduate, sit for licensure and/or obtain employment. Any rates reported below that have been modified in accordance with these flexibilities have been adjusted in one of the following manners as indicated.

Please see footnotes at bottom for more information.

¹ Some students who previously enrolled at this institution and were unable to successfully graduate, sit for licensure and/or obtain employment attested that they were unable or unwilling to do so specifically due to the COVID-19 Pandemic. Students who made such attestations have been excluded from the calculation of this rate. Additionally, students who withdrew from the program and had their loans discharged due to COVID-19 in accordance with the US Department of Education implementation of the CARES Act relief were excluded from the calculation of the rates.
